

Our Rebrand

As 2016 comes to an end we have many things to look back on and celebrate.

Our major event this year was the launch of our rebrand as Sports Injury Clinic.

With us continuing to grow on our successes at netball with our Netball North Harbour Sports Injury Clinic & our availability to be at sporting tournaments, it was time to bring everything under the one brand.

Sports Injury Clinics are available to attend all sporting events and offer physiotherapy services, rehab products and massage therapy.

Our name may have changed but we still offer the same world-class services with our highly qualified professionals.

The Year Ahead

Planning for next year is already underway & will see us holding strapping seminars, injury prevention workshops such as ankle clinics & much more.

Our online shop was launched & serves as your one-stop-shop for all your rehab needs. Great products, great prices & easy delivery straight to your door.

Our onsite gym is available during clinic hours with very competitive membership options. Many of our patients use the gym not only for rehab sessions but also strengthening & future injury prevention.

Regular updates are posted on our Facebook pages with tips, advice, specials & clinic news. Don't forget to hit the LIKE button to stay in the loop.
